

Our Services

Atlantic's Services

Fabrication, Welding,
Machining, Assembly / Testing

Our Services

Shipping Container Modification

Atlantic Fabricating Co.

KC-135 Bladder Test Fixture

Satellite Tooling

Satellite Tooling

Custom Cabinet Assembly

Custom Radiation Detection Chamber

Custom Frame and Roller Assembly

OEM 22,000 Lbs Radiation Detection Unit

OEM Segmented Gamma Scanner

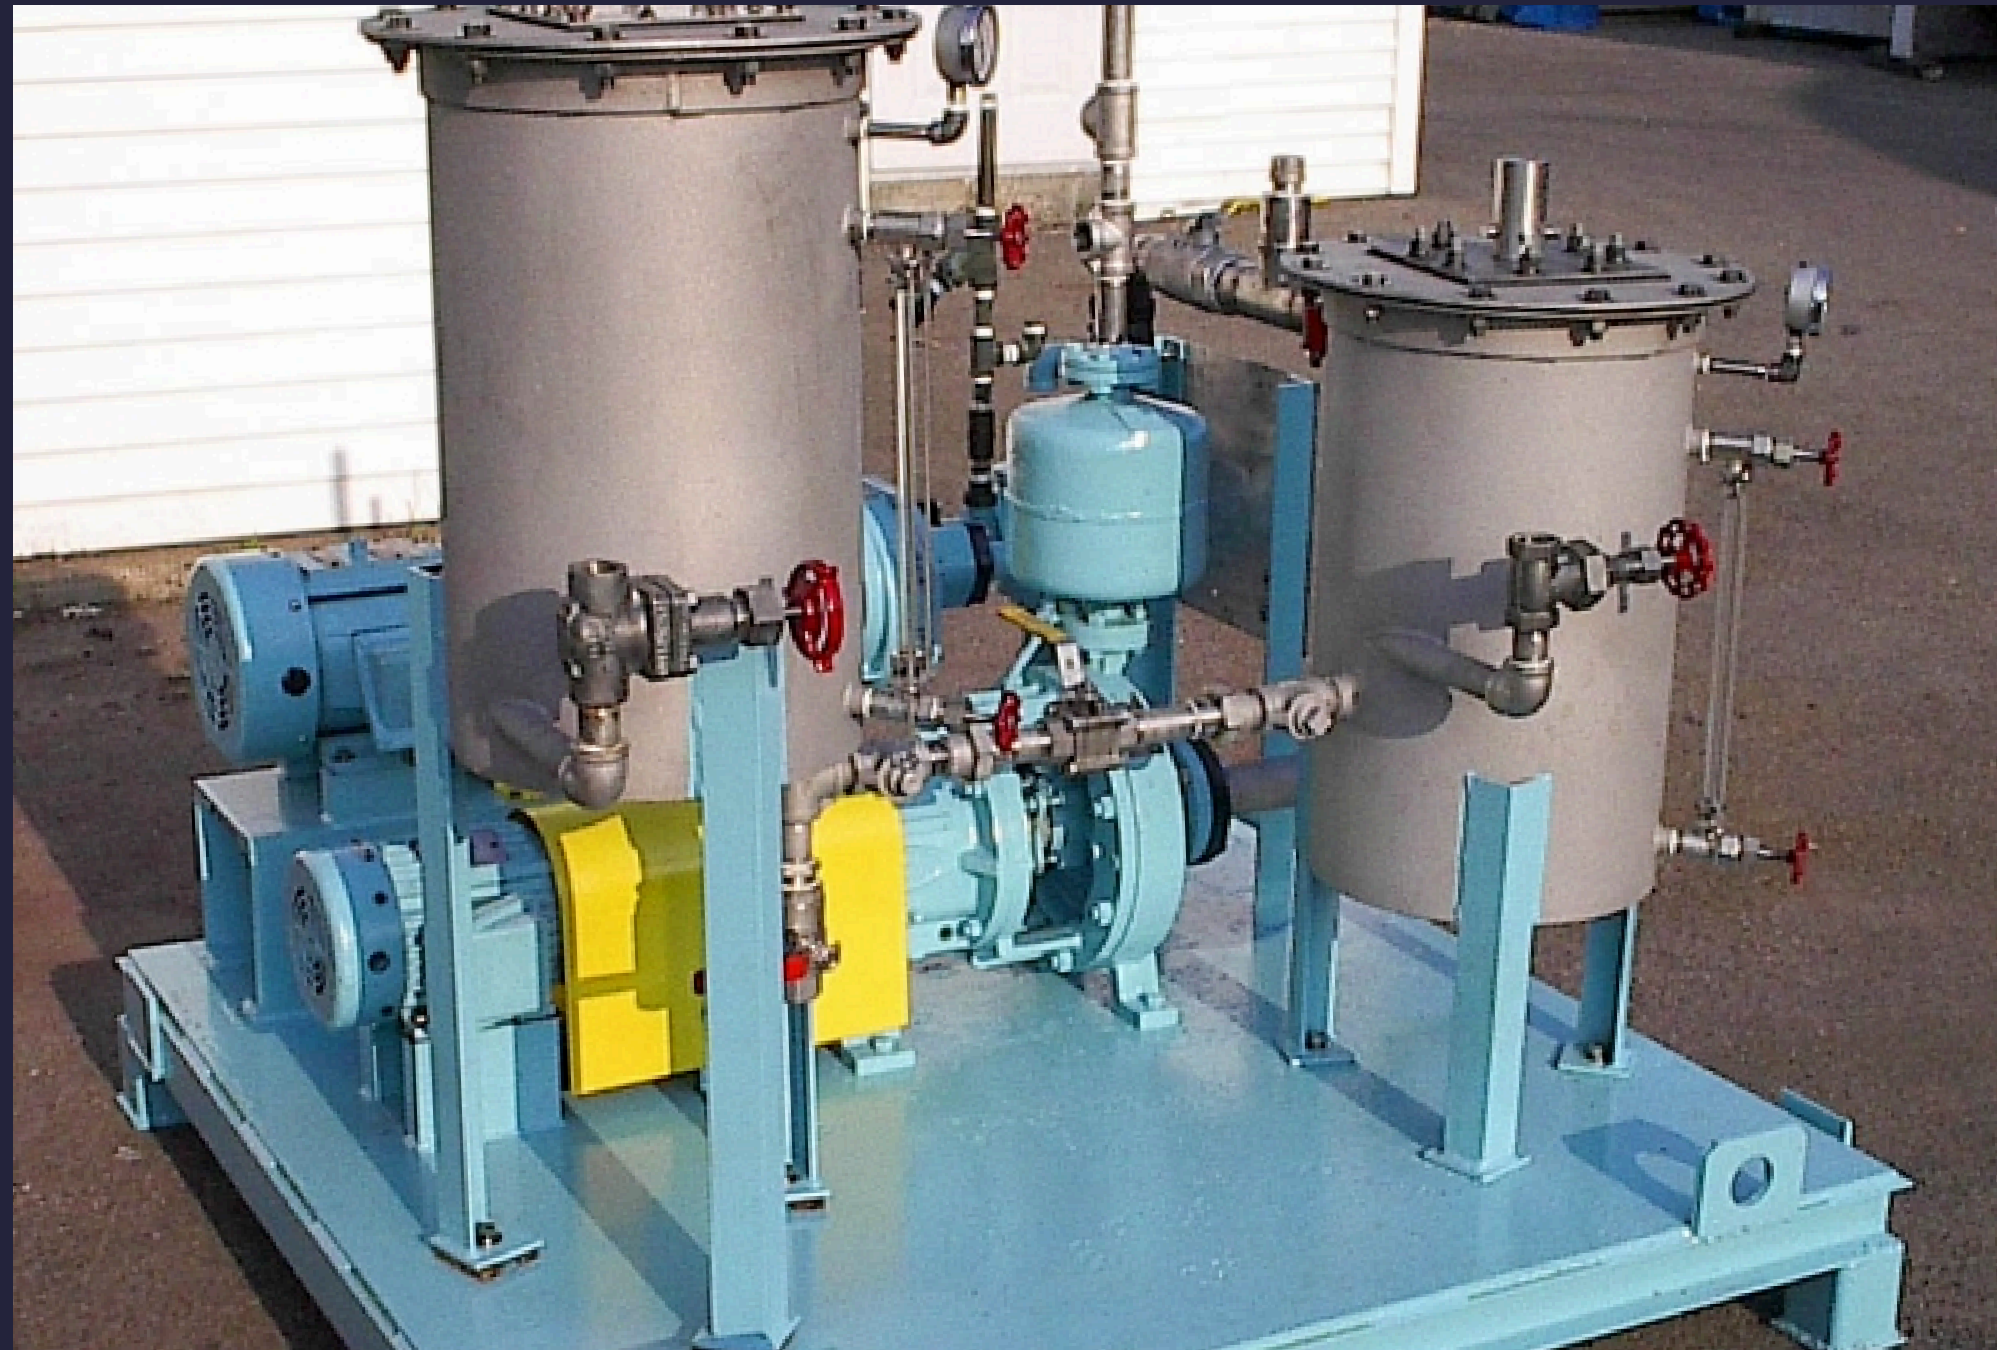

Low Volume OEM Production Tank

OEM Production Skid

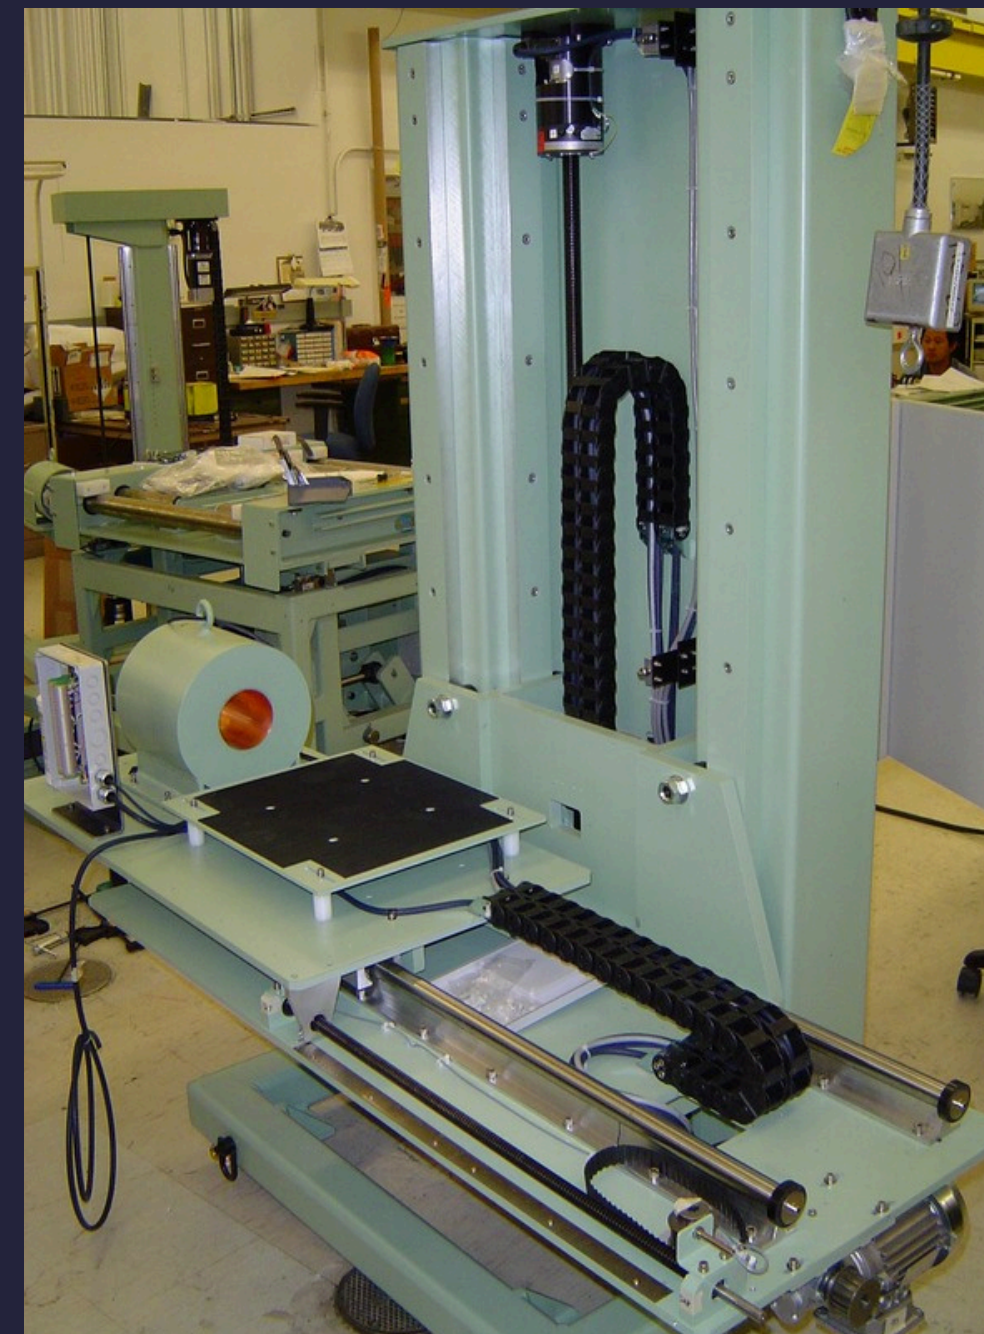

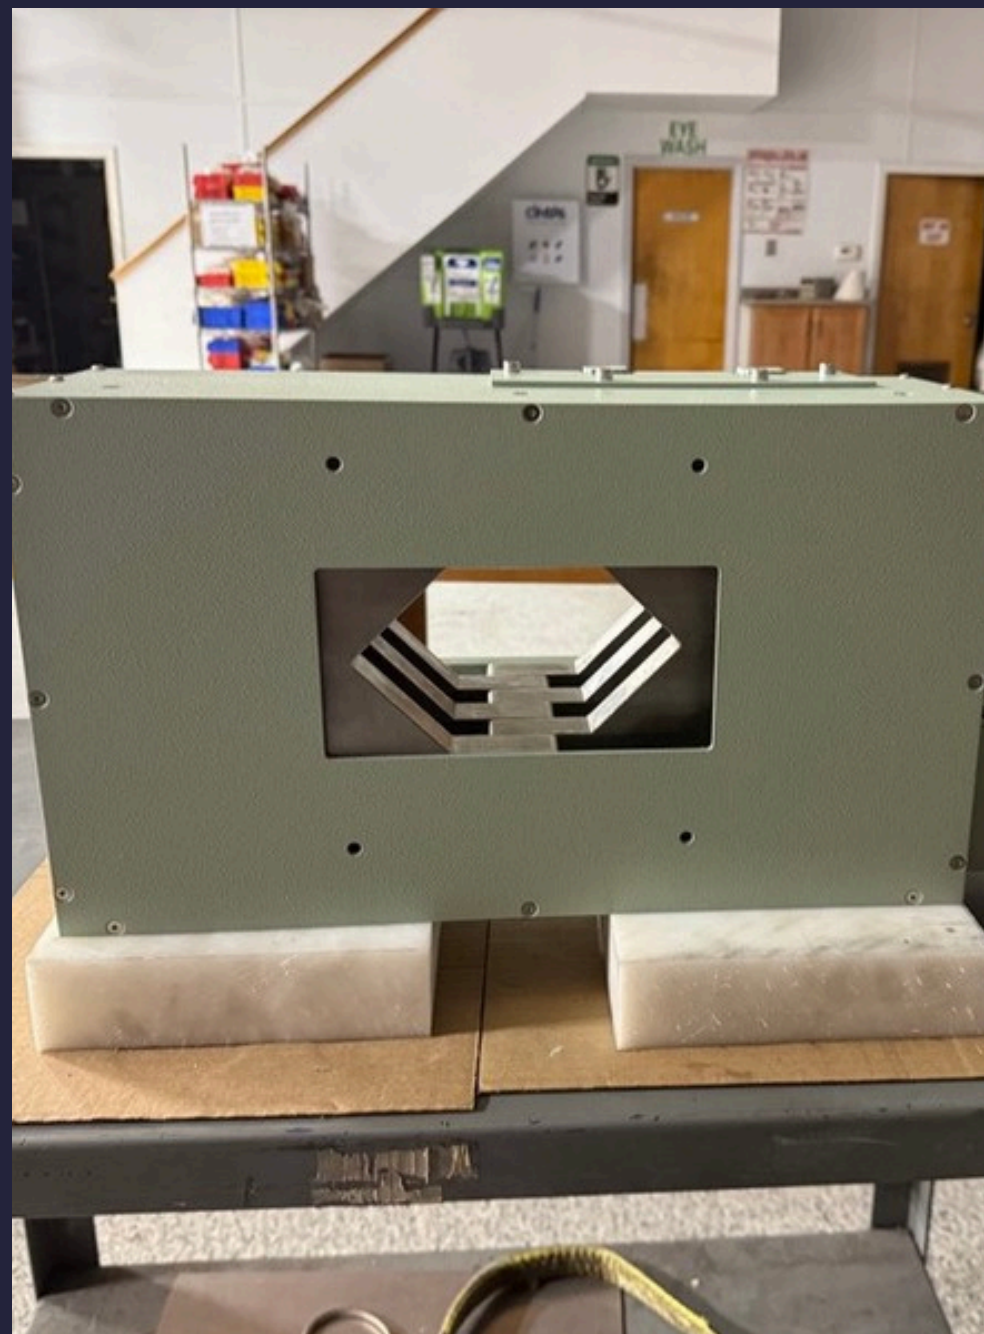

Production Sample Changer Assembly

Our Services

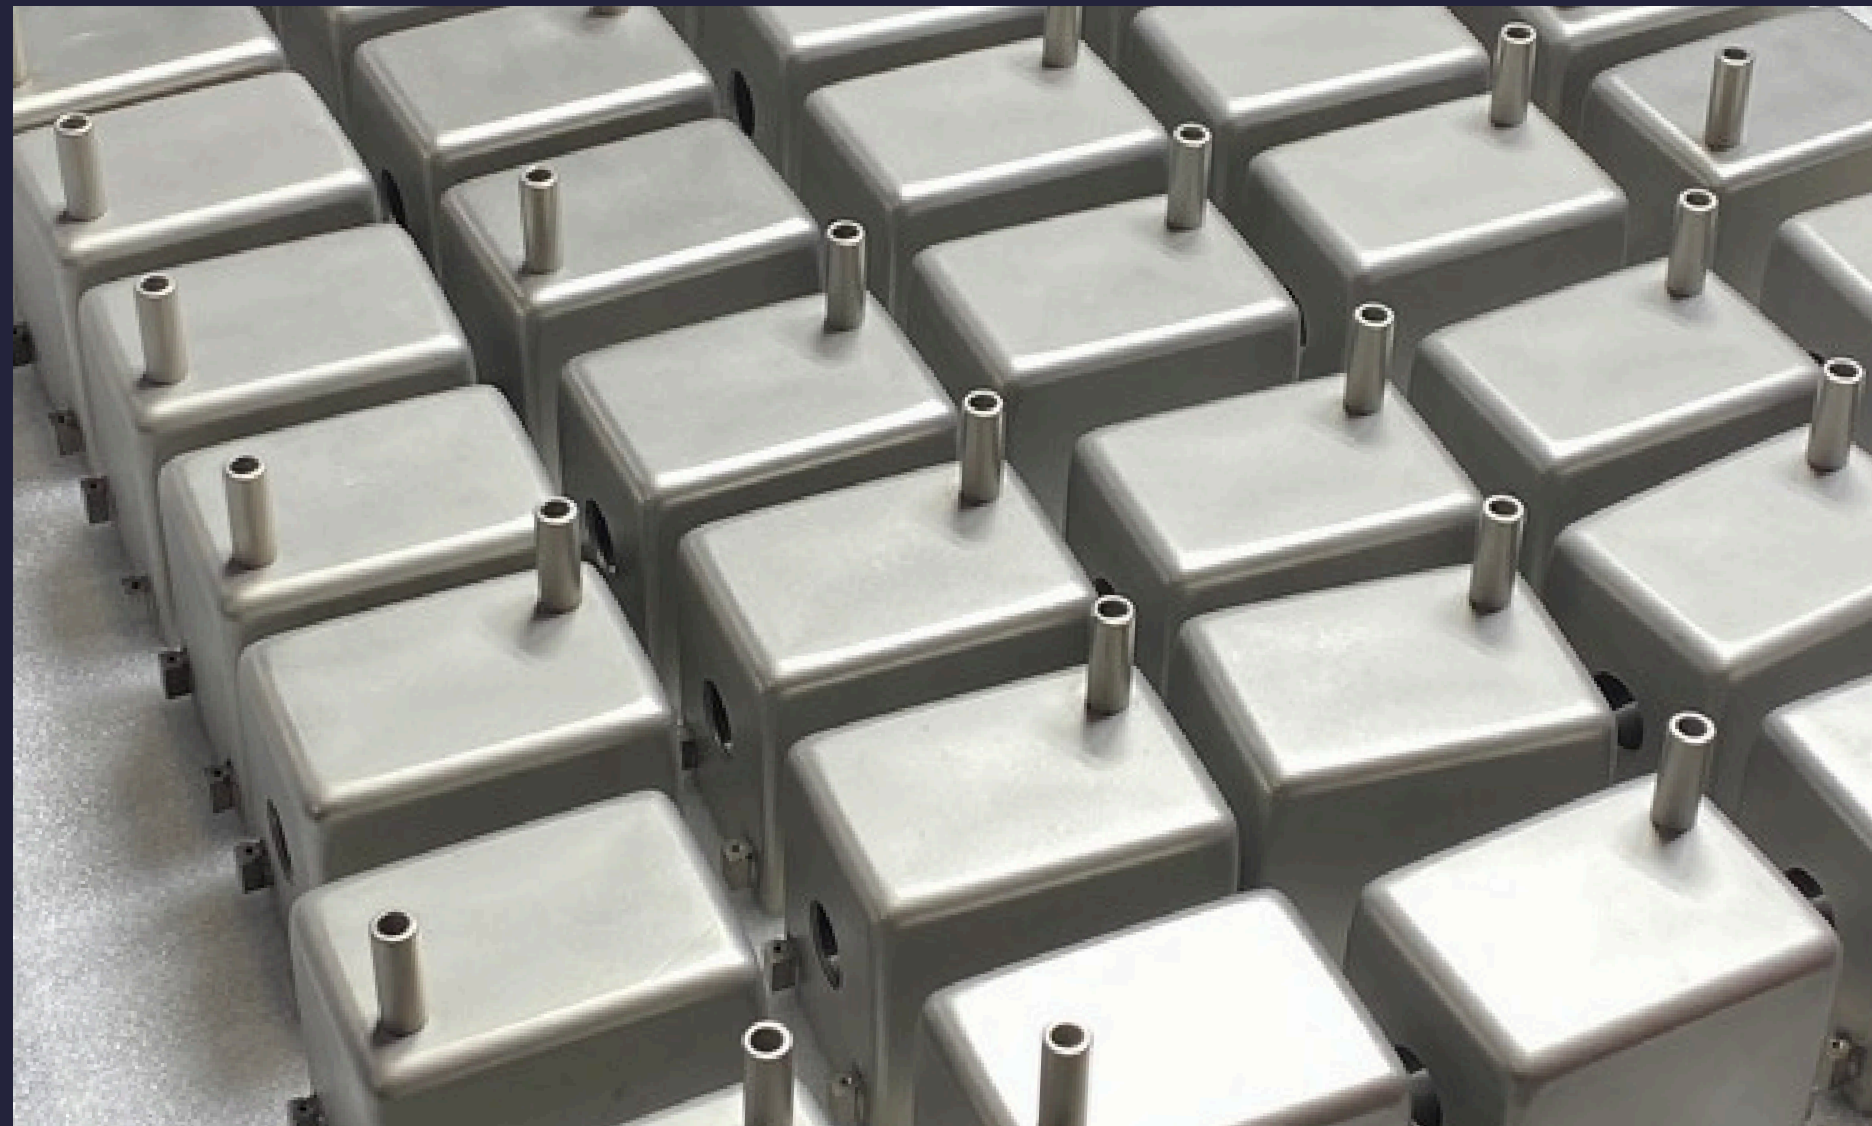

Atlantic Fabricating Co.

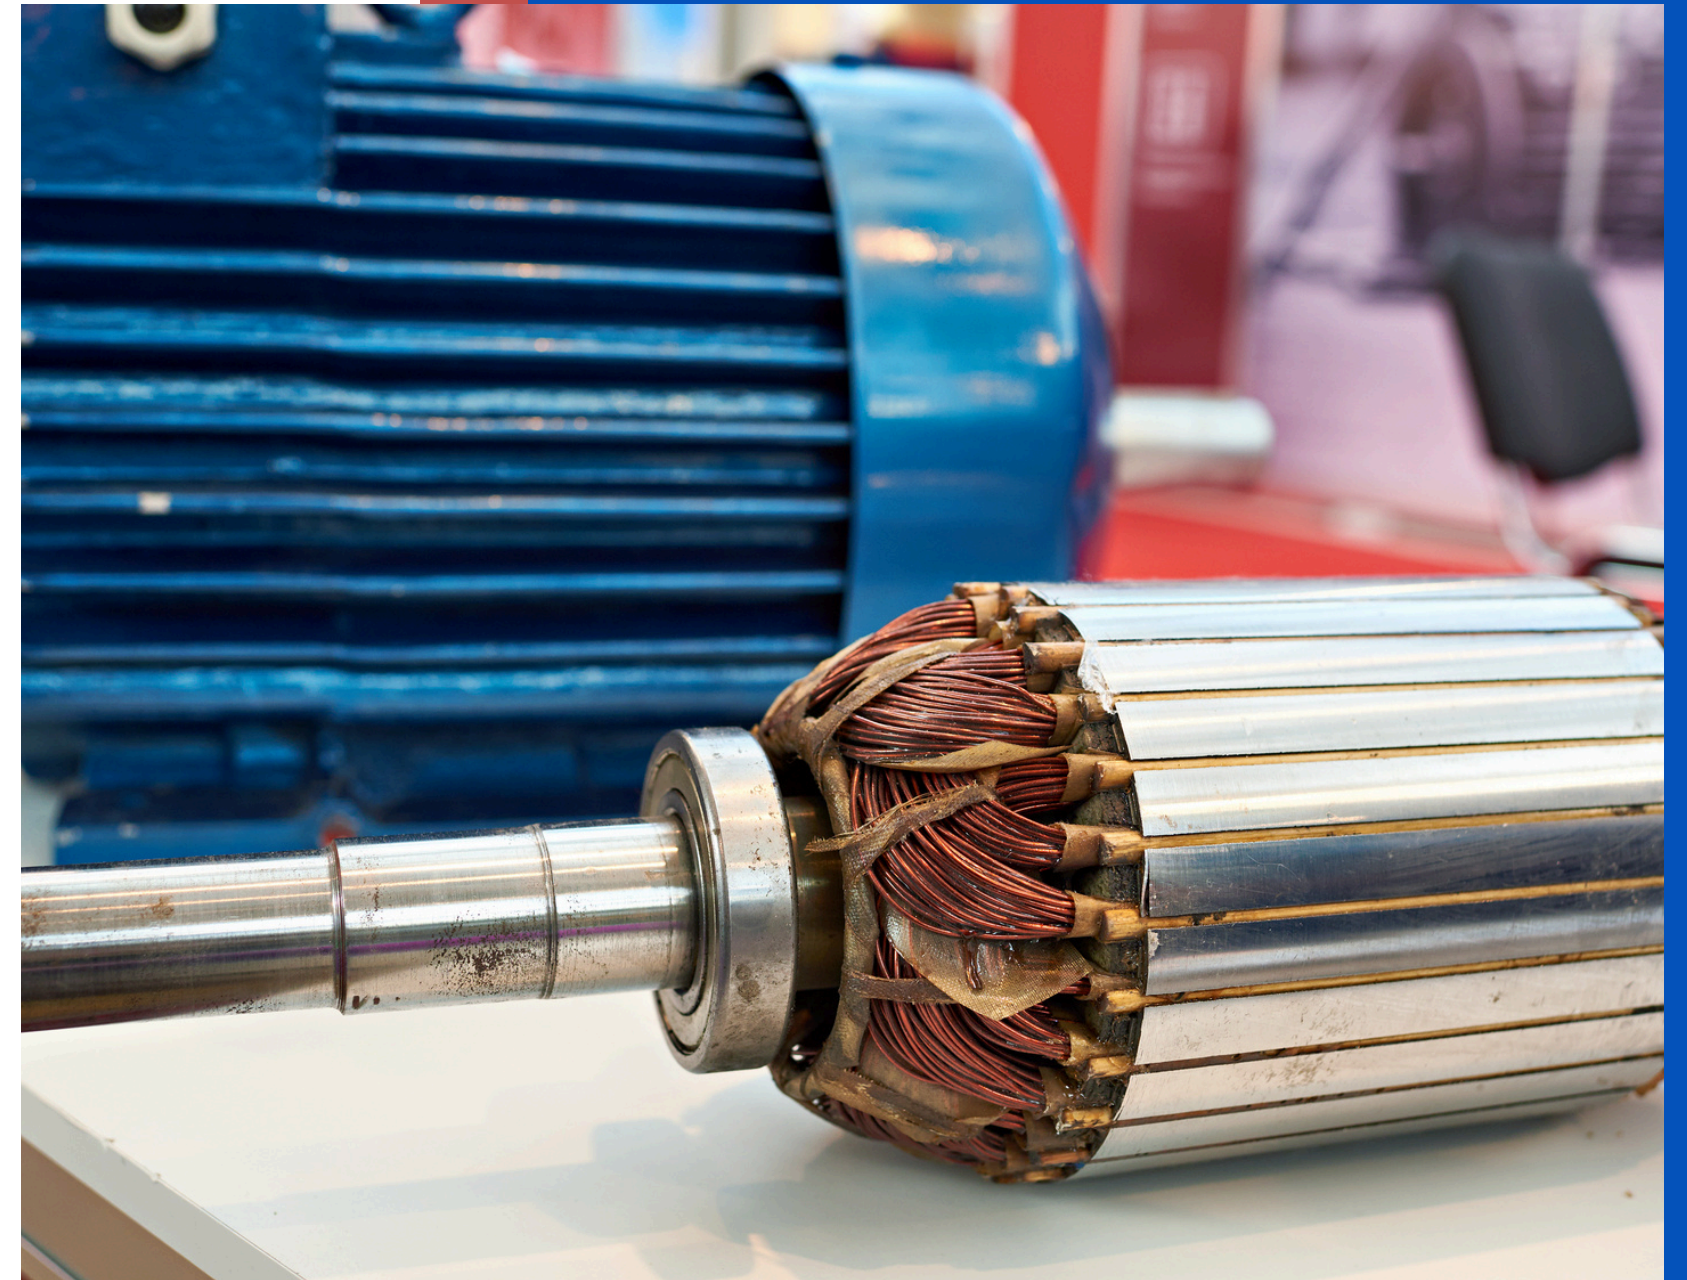

Vacuum Chambers

Facilities Spares

Circuit Board Research

Research Activities range from the production of the prototype to the creation of complex devices (electronics, mechanics, rapid assembly, technique, reduction of production costs, etc).

Circuit Design & Modeling

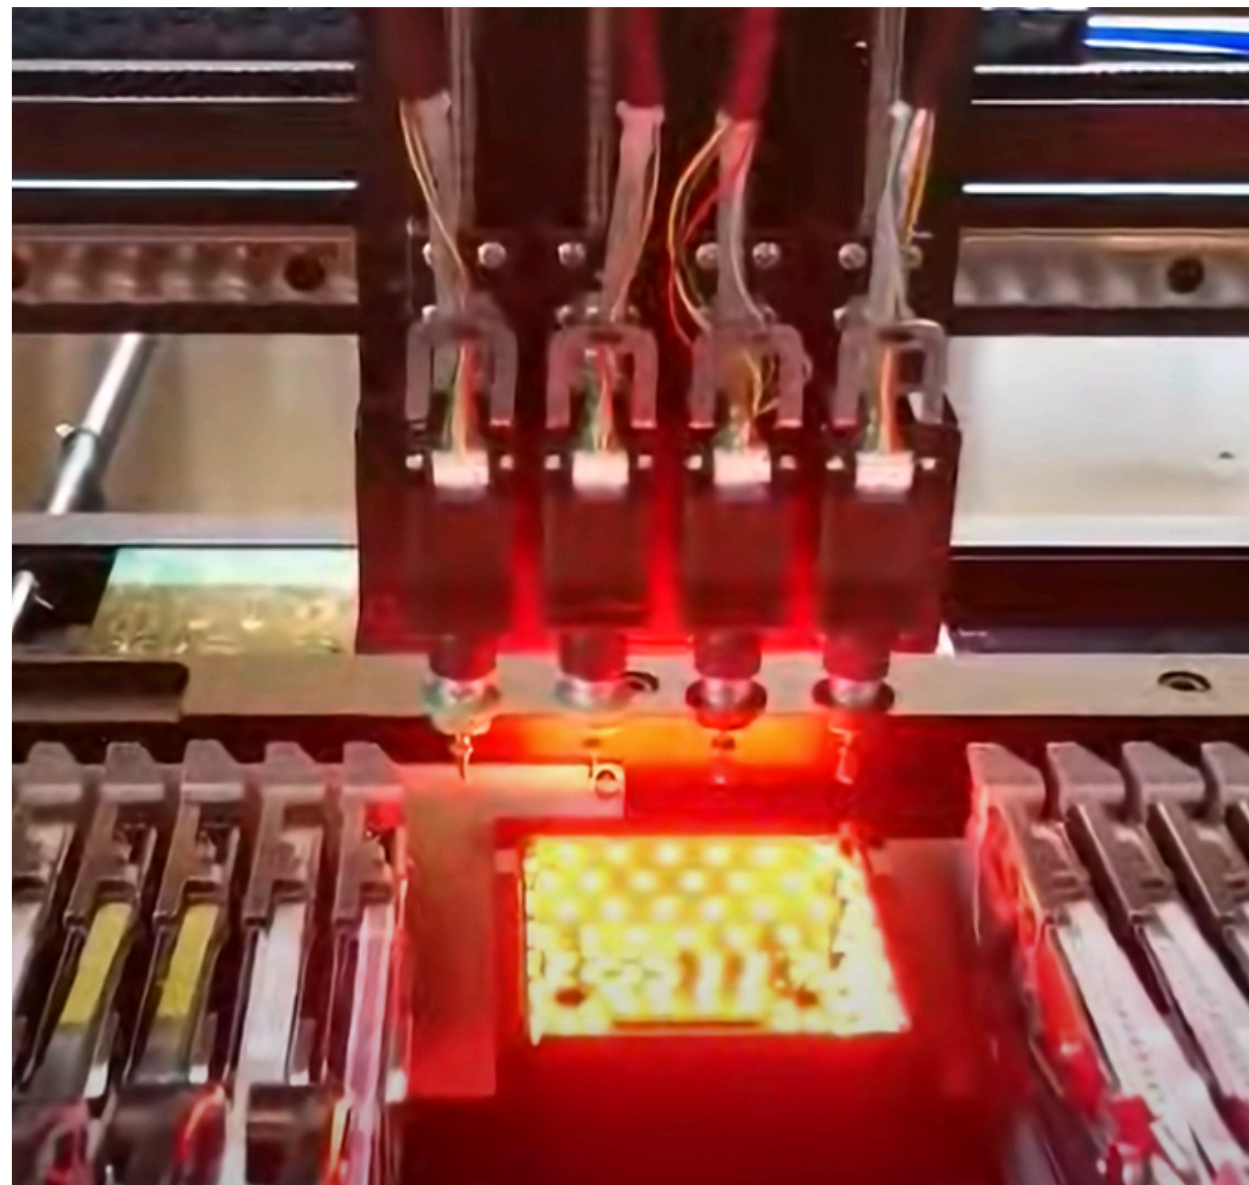

3 Axis Micromilling Unleash creativity with our 3-axis digital micromilling. Craft intricate shapes from LAB, resins, plastics, and more.

3D Prototyping From concept to reality, our 3D prowess aids prototyping.

Machining dimensions X=600mm, Y=420mm, Z=100mm.

Circuit Board Production

Electronics Powered by an array of advanced control instruments, we conduct a multitude of tests, ensuring uncompromised quality.

Mechanical We specialize in swift 2D and 3D engraving and machining services, prioritizing rapid prototype production.

Circuit Board Repair

Repair Services Providing top-notch electronic repair solutions for a wide range of devices.

Troubleshooting Specialists We excel at identifying and resolving issues, ensuring your electronics are up and running smoothly.

Customized Repairs Tailoring our services to your needs, we fix problems based on your detailed problem descriptions.
