

CREATIONS

ELECTRONICS MANUFACTURING SERVICES SOLUTION PROVIDER...

Milestones...

2015

Established manufacturing unit, to offer assembly services of consumer electronics in New Delhi, India.

2017

Established bigger manufacturing plant in Noida, Uttar Pradesh, India to cater more clients.

2019

Added more production and packing lines to increase the production capacity of the plant.

2021

Established SMT Plant, to offer PCB Assembly services in various domains in Noida, Uttar Pradesh, India.

2022

Added more SMT lines and equipment's to increase the production capacity of the plant.

2023

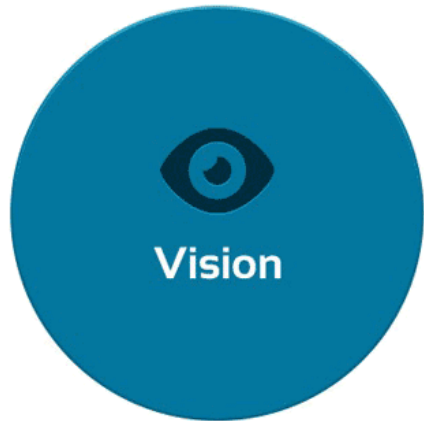

Adding more SMT Mounters, Inspection and Testing Equipment's to offer faster and reliable manufacturing services to our clients.

10+

400+

Vision & Mission

Become a reliable and trusted EMS Solution Provider in Automotive, Consumer Electronics, Power Electronics, IT Hardware, Telecom, Energy Meters and other domains!

Deliver high quality production services with minimum defect ratios along with end-to-end solutions which are economical at the same time for our clients!

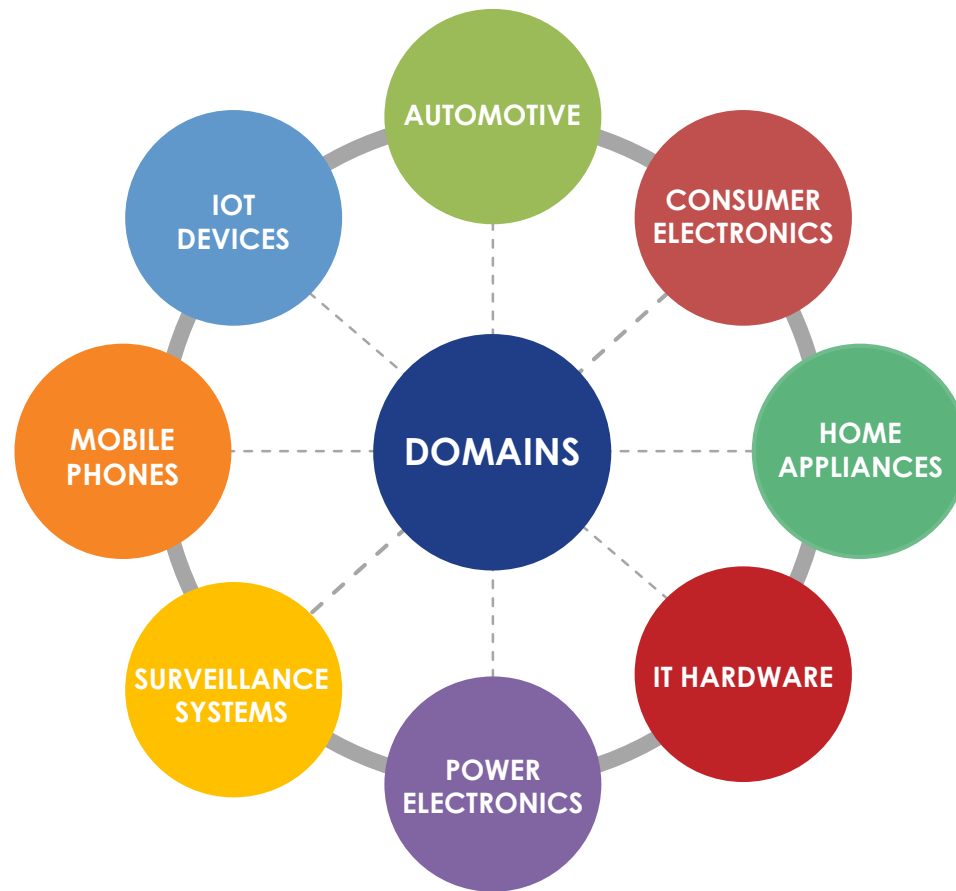

Management

With the degree in Management Information Systems, from Drexel University, Philadelphia, PA, United States, and a professional certification in Distributed Software Development from Ames Academy, New Zealand, **Varun Goyal** has professionally worked in United States, Singapore and New Zealand. Starting with online distribution & trading of electronic products, since 2011, he switched to manufacturing of mobile phones, tablet pc's and accessories in 2015. In past seven years, he expertise himself in establishing and defining processes for a professional grade electronic manufacturing unit. This experience strengthened his in-depth understanding on SMT, MI and product assembly process in various domains such as consumer electronics, it hardware, auto-motives, power electronics and others.

Lakshmi Goyal is an engineering graduate in computer science, from MG University, Kerala, with more than 15 years' experience in IT industry. She has specialized certification in Distributed Software Development and multiple Microsoft Certifications to her credit. With a widespread exposure of having worked in India, United States and New Zealand in web development and digital marketing, she started her own IT Services company in 2013 with a professional team. Later, she entered into Telecom industry in 2015 where she has helped automate various processes from warehousing to production to packaging.

PCB Assembly

PCB Assembly is one of the most challenging steps of any Electronics Product Design. The layout and design of your PCBA is the sole driving force behind product performance and safety. The number of electronic devices that require PCBA is increasing at an exponential rate. User demand, increased functionality requirements and shrinking device sizes are driving a surge in the demand for PCBAs.

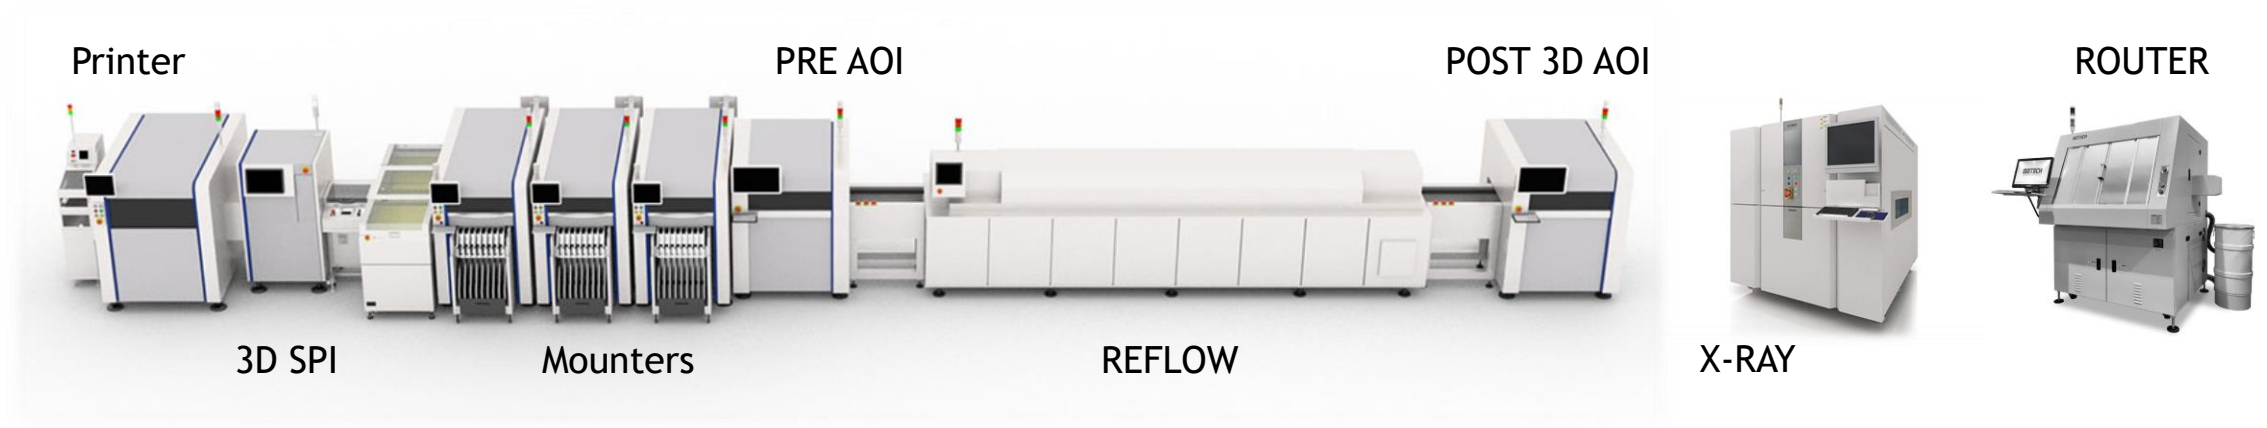

Our EMS team offers Through Hole (THT) or Surface Mount Technology (SMT) or a mix of both, to place variety of components onto the PCB as per of the client requirements.

Creations has a multi-floor facility that hosts the latest infrastructure – Laser Marking Machines, Panasonic Automatic Printers, Panasonic Mounters, SPI Machines, AOI Machines, JT Reflow Ovens, Routers, Stencil Cleaning Machine, X-Ray Machine, Conformal Coating Machine, Under-filling Machine, 4G/5G RF Calibration Machine, Wave Soldering Machine and Whitt Conveyors along with the best team of qualified professionals.

Our experts believe in continual improvements, be it processes, or quality procedures or testing parameters, thus ensuring top-class deliveries every time.

Product Assembly

Creations specializes in assembling of Mobile Phones, Tablet PCs, Smartwatches, Neckbands, TWS, BT Speakers, IT Hardware, Remote Controls, Smart-Meters, Set-Top Boxes, Automotive Controllers, Chargers and Power Adaptors. We have an extremely versatile setup and cater to Brands, OEM's or ODM's depending on their requirements.

Creations has a multi-floor state-of-the-art manufacturing unit in Noida, with multiple ESD protected SMT lines, production lines and multiple packaging lines. To ensure the quality of the final products, we do have a dedicated Quality Control team, which addresses all quality related parameters specific to the product, supplier quality issues, in-process quality concerns and customer quality requirements.

Creations Quality team always strives to go the extra mile by performing root cause defect analysis and provide solution against the same to ensure top quality deliveries to our clients.

Quality Standards

Creatons Industries Private Limited

Ground and Basement
H-35, Sector-63, Noida
Gautam Buddha Nagar - 201 301
Uttar Pradesh
INDIA

Date: 2023-09-19

Letter of conformance

Dear Sir or Madam,

Having conducted the certification audit referring to the Quality Management System of your organization and having verified the implementation of the corrective actions, we are pleased to inform you that the Quality Management System of

Creatons Industries Private Limited

Ground and Basement
H-35, Sector-63, Noida
Gautam Buddha Nagar - 201 301
Uttar Pradesh
INDIA

IATF USI PAPMKP

Manufacture of Printed Circuit Boards Assembly.

complies with the requirements of the International Automotive Standard IATF 16949:2016 & rules 5th edition.

However, we cannot issue a certificate at the moment due to the fact that:

The site is new and does not have 12 months of internal & external performance data for the automotive production and/or service parts in the scope of certification.

DQS Holding GmbH will continue the certification process according to the rules for achieving IATF recognition.

This letter of conformance is valid for a twelve months period.

CB LoC-No.: 50258851 IATF16 KON
being the issue date: 2023-09-19
and the expiry date: 2024-09-18
LoC-No: 0483348-LoC

The next audit in your company should be completed within this period.

Best regards

Nurani S. Venkatachalam
